How to Cure Croup.

## EDITOR AND PREACHER.

Both Manipulate Their Whitewash Brush With Good Effect.

The press and the pulpit have more charity than all the balance of the community. A Preacher once said:

"Editors dare not tell the truth. If you did you could not live. Your newspapers would be a failure."

The Editor replied:

"You are right, and the Minister who will at all times tell the truth about his members, alive or dead, will not occupy the pulpit more than one Sunday, and he will find it necessary to leave town in a hurry."

The press and the pulpit go hand in hand with whitewash brush and kind words, magnifying little virtues into big ones.

## THE DUTCHMAN'S DOG.

## THE MODERN MOTHER.

Has found that her little ones are improved more by the pleasant Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

In the botanical garden of Berlin is to be seen a cactus which has grown for seven years in a glass flask sealed by fusion. The growth of the plant was expected by the fact that the soil in which it grows contains a certain quantity of spores of fungi, which cover the sides of the flask with a greenish layer. These, in dying, furnish the carbonic acid necessary for the life of the cactus.

During the volcanic eruption in the Hawaiian Islands last summer, the smoke rose to a height of between five to six miles, and then drifted away to the Northeast. At a distance of 600 miles from Hawaii it settled upon the surface of the sea, and was then carried back by the Northeast wind to its place of origin, where it arrived a fortnight after its original departure, and covered the entire group of islands with its heavy pall.

About a year ago a 70-pound Mississippi river catfish was taken to the New York aquarium. For about six months it was an exceedingly inexpensive boarder, eating hardly anything. Now, however, it is feeding regularly, taking every other day a single meal of 1 pound to 1½ pounds of eels and herrings. The bottom of the big cat's tank is covered with white sand, in which it loves to rub itself.

Wheat is growing so rank in the Arkansas valley wheat belt, embracing territory that produced over 40,000,000 bushels last year, that the farmers are advertising to take stock free for the purpose of eating it down. The indications at this time for the crop are 25 per cent. more favorable than they were at the same time last year. It is now estimated that Sedgwick, Sumner and Barton counties in Kansas will produce 20,000,000 bushels of wheat next year.
